

EUROPEAN SPACE AGENCY
SOLAR SYSTEM WORKING GROUP

119th SSWG Meeting

to be held on

6th OCTOBER 2005

(starting 09.30 hrs and foreseen to end around 17.30 hrs)

at ESA Headquarters, Paris
(in Room 137)

Draft AGENDA

1. Adoption of Agenda (SOL(2005)14)
2. Science Programme update :
Towards the Ministerial Conference December 2005
3. Satellites in Orbit
 - 3.1 Ulysses
 - 3.2 Soho
 - 3.3 Cluster
 - 3.4 Double Star
 - 3.5 Mars Express (PFS?)
 - 3.6 Rosetta
 - 3.7 Cassini/Huygens
 - 3.8 Smart-1
4. Nationally led projects :
Report of referees and deliberations
5. Projects under development
 - 5.1 BepiColombo: Status report and SWT Recommendations
 - 5.2 BepiColombo Payload
 - 5.2.1 Magnetometer and X-Ray Spectrometer
 - 5.2.2 Gamma-Ray Spectrometer and Laser Altimeter confirmation

6. Projects in preparation
 - 6.1 Solar Orbiter : Status report
 - 6.2 Solar Orbiter : Science Management Plan
7. Future mission studies :
The Joint Jovian European–US Working Group : Status report
8. Science and Data Policies
 - 8.1 ESA's Planetary Science Archive – a Status report
 - 8.2 The new approach to Science Operations for ESA's Planetary Missions
9. New Membership for 2006
10. Any other matter
- Discussion on possible support to Chinese mission Kuafu
11. Date and Place of next meeting
