

## **Economic, Political, Legal and Management Aspects of Lunar Base Development**

*Sadeh, E.; University of Colorado*

### **1. Agenda-Setting**

- Historic Conditions of Human Space Exploration
- Rationales for Lunar Base Development
- Advocacy for Lunar Base Development

### **2. Policy Formulation**

- Governmental Politics and Policy
  - Governmental Support for Lunar Base Development
  - National Space Agencies
- Private Sector Aspects
  - Privatization of Lunar Base Development
  - Commercialization of Lunar Base Development

### **3. Implementation**

- Bureaucratic and Managerial Factors
- Economic and Financing Issues and Lunar Base Development
- Legal Aspects and Lunar Base Development
- International Space Cooperation and Lunar Base Development

### **4. Policy Outcomes**

- Technology Assessment and Social Forecasting of Lunar Base Development
  - Exploratory Stage  
Prospecting; Remote Sensing (Apollo, Lunar Prospector)
  - Pioneering Stage  
Human habitat testing; in-situ resource utilization
  - Outpost Stage  
Encampment; permanent human infrastructure
  - Mature Base Stage  
Self-sufficient human-tended lunar base
