

**EUROPEAN SPACE AGENCY**

**SOLAR SYSTEM WORKING GROUP**

**Recommendation on TARANIS and Szathmary**

At its 126<sup>th</sup> meeting held on January 14-15 2008 at ESA Headquarters, Paris, the Solar System Working Group (SSWG) took note of the request for extension of PECS activities in the Czech republic (TARANIS) and in Hungary (Szathmary research program).

SSWG is convinced of the high science interest of the TARANIS mission which is fully in-line with the International Living With a Star (ILWS) program, and of the extension of the Szathmary research program.

**SSWG thus fully endorses the involvement of Poland and the Czech republic in TARANIS and the continuation of the Szathmary research program in Hungary through PECS.**
