TSR Presentation Contents

Each individual TDA presentation will use this Table of Contents:

1. Brief recall of original Objectives of TDA
2. Technology Requirements (confirmation/amendment of the quantitative performance and environmental requirements in SoW and TDA specification)
3. Scope of TDA (as actually run), including an estimate of the achieved TRL
4. Schedule of TDA (if not yet completed by February 2005)
5. Deliverables of TDA (hardware models as actually built, software, key specifications and reports)
6. Critical Technology Requirements not met and performances not achieved by the TDA
7. Critical technology items not covered by scope of TDA (late discovery, limited resources) and assessment of related technological risk
8. Planning to Flight Model status (additional development & qualification activities, required models, required facilities – if critical/non-standard, estimated schedule)
