

Time and Space

Claire Selby©2006

Time and Space, you lead me on
To adventure and discovery -
Who I am and where I belong.
Time and Space, you lead me on
To a new world where the dark is light
And the fire of life is strong!

Shadows eclipse my sun
Like the darkness of night.
Turn your face back here to me
Bring me your light!
With the dawn of tomorrow
There's a new eternity -
Will the dawn of tomorrow
Bring you back to me?

Time and Space, you lead me on
To adventure and discovery -
Who I am and where I belong.
Time and Space, you lead me on
To a new world where the dark is light
And the fire of life is strong!

Tears of cold dark energy
Are freezing my heart -
Pulling me by gravity
To tear me apart.
Will the dawn of tomorrow
Bring a life to me that's new –
Will the dawn of tomorrow
Bring me back to you?

Time and Space, you lead me on
To adventure and discovery -
Who I am and where I belong.
Time and Space, you lead me on
To a new world where the dark is light
And the fire of life journeys on...
